BARRACKS FILLED WITH MONGOLIAN TROOPS -- New York, Riportok es Hirek Magyarorszagrol, 2 Sep 50

The military barracks of Szekesfehervar are filled with Mongolian troops. The population is disturbed, because the behavior of these soldiers is unbearable. Besides, it is known that Asiatic troops have never before been used by the Soviet General Staff either for liaison or for occupational purposes. Training in the Szekesfehervar barracks continues without interruption. As many as three dozen T-34 Soviet tanks are lined up behind the fence.

More troops and equipment continue to arrive at the Szekesfehervar railroad station. Rocket weapons, which were used with great success in the last war, are easily recognizable under tarpaulins. These weapons are not taken to the Szekesfehervar arsenal, but into the Bakony Woods. In the Bakony Woods, there are several places where not even Communists are admitted.

VOROSHILOV IN BUDAPEST -- New York, Riportok es Hirek Magyarorszagrol, 2 Sep 50

Voroshilov visited Budapest last on 4 April to participate in the anniversary of liberation. Following the public celebration, he presided over a secret meeting of the general staffs of the Iron Curtain countries.

The Hungarian newspapers are keeping Voroshilov's current stay in Hungary a secret, although he has been in the country since 14 August. He is staying at Balatonkenese behind machine guns and barbed wires.

On 20 August, Voroshilov visited Janoshegy (a popular resort near Budapest), at which time the entire surrounding area was blocked off by the police for 24 hours.

It is probable that Voroshilov is participating in Cominform meetings in Budapest, and that in view of his presence these meetings have military importance.

BUILD 2 RADAR STATIONS NEAR VESZPREM -- New York, Riportok es Hirek Magyarorszagrol, 2 Sep 50

Two radar observation stations are being built near Veszprem under USSR supervision. Four towers of one station are already completed. This is the second installation of this type. The second is in the Diosd hills near Erd, north of the bend on the Balaton highway where the short-wave broadcasting station was recently erected.

A wave-measuring observation post is also being constructed at the site of the radar station near Veszprem. At the last count, eight antenna towers had already been constructed. USSR military forces in Hungary and the Budapest government are feverishly building up the country's radar installations. They have also been going to great expense to discover whether illegal radio stations are operating in the country.

REPORT MILITARY MOVEMENTS -- New York, Riportok es Hirek Magyarorszagrol, 9 Sep 50

Many military freight vehicles are seen in caravans on the Budapest-Szabadka, the Budapest-Szekesfehervar, and the Budapest-Pecs state roads, accompanied by motorcycle escorts. The vehicles are both those of the USSR and the Hungarian State Security Authority.
